

For the prevention and cure of
BILIOUS AND MALIGNANT FEVERS
is recommended

Hahn's ANTI-BILIOUS PILLS
THIS Medicine has been attended
with a degree of success highly grateful
to the inventor's feelings in several parts
of the West Indies and in the Southern
and Middle States, &c.

The testimony of a number of persons
can be adduced, who have reason to be-
lieve that a timely use of this salutary re-
medy has, under Providence, preserved
their lives when in the most alarming cir-
cumstances.

Facts of this conclusive nature speak
more in favour of a medicine than com-
mons of pompous eulogy founded on
mere assertion.

It is not indeed presumptuously pro-
posed as an infallible cure, but the inven-
tor has every possible reason that can re-
sult from extensive experience for be-
lieving that a dose of these Pills taken
once in every two weeks during the pre-
valence of our bilious fevers, will prove
an infallible preventive; and further,
that in the earlier stages of those diseases
their use will very generally succeed in
restoring health, and frequently in cases
estimated desperate and beyond the pow-
er of common remedies.

The operation of these pills is perfectly
mild, so as to be used with safety by per-
sons in every situation and of every age.

They are excellently adapted to carry
off superfluous bile and prevent its mor-
bid secretions—to restore and amend the
appetite—to produce a free perspiration
and thereby prevent colds which are of-
ten of fatal consequences. A dose never
fails to remove a cold taken on its first
appearance: they are celebrated for re-
moving habitual costiveness—sickness at
the stomach and severe head-ache—and
ought to be taken by all persons on a
change of climate.

They have been found remarkably effi-
cacious in preventing and curing disor-
ders attendant on long voyages, and
should be procured and carefully preserved
for use by every seaman.

Hamilton's Elixir.

A sovereign remedy for colds, obsti-
nate coughs, asthma, sore throats, cat-
arrhs, and approaching consumptions.—
To parents who have children afflicted
with the **HOOPING COUGH**, this dis-
covery is of the first magnitude, as it af-
fords immediate relief, checks the pro-
gress, and in a short time entirely re-
moves the most cruel disorders to which
children are liable. The Elixir is per-
fectly agreeable, and the dose so small
that no difficulty arises in taking it.

Hamilton's Grand Restorative.
Is recommended as an invaluable me-
dicine for the speedy relief and perman-
ent cure of

Nervous Disorders Violent cramps in
Consumptions the stomach and
Lowness of spirits back
Loss of appetite Indigestion
Impurity of blood Melancholy
Hysterical affection Gout in the stomach
Inward weakness Pains in the limbs
and debility Relaxations, etc.

Hamilton's Essence and Extract of Mustard.

A safe and effectual remedy for acute
and chronic rheumatism, gout, rheumatic
gout, palsy, lumbago, numbness, white
swellings, chilblains, rashes, bruises, pain
in the face and neck, etc. etc.

Lee's Ointment for the Itch.

Warranted an infallible remedy at one
application, may be used with perfect
safety by pregnant women, or on infants
a week old, not containing a particle of
mercury or any dangerous ingredient
whatever, and not accompanied with that
tormenting smart which attends the ap-
plication of other remedies.

Hahn's true & genuine German Corn Plaster.

An infallible remedy for corns, speedily
removing them root and branch, with-
out giving any pain.

The Genuine Persian Lotion.

So celebrated among the fashionable
throughout Europe, is an invaluable cos-
metic, perfectly innocent and safe, free
from corrosive and repellent minerals,
the basis of other lotions, and of un-
paralleled efficacy in removing blemishes
of the face and skin, freckles, pimples,
inflammatory redness, scurfs, tetter, ring-
worms, sunburns, prickly heat, &c.

Hahn's genuine Eye Water.

A sovereign remedy for all diseases of
the eyes, whether the effect of nature
weakness or of accident.

Tooth Ache Drops.

The only remedy yet discovered which
gives immediate and lasting relief in the
most severe instances.

Lee's Infallible Ague and Fever Drops
For the cure of agues, remittent and
intermittent fevers.

At the place of sale pamphlets
may be had gratis, describing cures per-
formed by the above medicines; the num-
ber, importance and respectability of
which, fully justify every article of this
advertisement.

An Act

Incorporating a Company to establish a
Turnpike Road from Wiley's tavern,
in the county of Fairfax, to a point of
intersection on the Little River Turn-
pike Road, or on the line of the dis-
trict of Columbia. Passed February
14, 1848.

It is enacted by the General Assem-
bly, that it shall be lawful to open
roads at Fairfax court-house, and in the
county of Alexandria, under the direction
of Francis Peyton, Augustine J. Smith,
Wm. Moss, Johnston Cleland, Amos
Alexander, Mordcau C. Fitzhugh, Jonah
Thompson, George Denecoe and James
H. Howe, or any three of them, for re-
ceiving subscriptions to the amount of
sixty thousand dollars, for the purpose of
making a turnpike road from Wiley's ta-
vern, in the county of Fairfax, to a point
of intersection on the Little River Tur-
pike Road, or on the line of the dis-
trict of Columbia, as shall be designated
by the directors of the company herein at-
tained.

When a sufficient number of shares
shall have been subscribed, the subscri-
bers, their heirs and assigns, shall be
and they are hereby incorporated into a
company by the name of "The Middle
Turnpike Company," agreeably to the
act, entitled, "An Act prescribing cer-
tain general regulations for the incorpora-
tion of Turnpike Companies."

This act shall be in force from the
passing thereof.
Richmond, March 11th, 1848.

The foregoing is a true copy of an act
of the General Assembly, passed Febru-
ary 14th, 1848.

Fan-ash Making.

METAL FAN-SASHES, of various
descriptions, will be made by the
subscriber, at this shop, lower end of Duke
street. The want of a Metal Fan-Sash
Manufactory in Alexandria, has hitherto
been severely felt by builders and oth-
ers, who have been compelled to make
use of wood, which is neither elegant nor
durable. The various forms into which
the metal can be shaped have given it a
decided superiority, and the difference in
the price is very trifling. The subscriber
has been at considerable expense in pro-
curing the necessary preparations, and
elies on public enterprise for success in
the undertaking.

Gentlemen in the country, by sending
the dimensions of their sashes, can have
them made at the same price as in town.

FRIDAY, JUNE 5, 1818.

TRIAL OF THE MURDERERS.

An examining court was held in this place on Monday last, and continued by adjournment until Tuesday evening, for the trial of the negroes charged with the murder of Dr. Robert Berkeley, as stated in our last. The mass of testimony exhibited, and the necessity of recording the same verbatim, for the consideration of the executive, in whom the power of pardon is vested, rendered it impossible to finish the trial but four of the offenders; two of whom, London and Sarah, were found guilty of the murder in all its aggravated circumstances, and are to be executed on Friday the 10th of July next. Barnaby and Robin, who were not present when the murder was committed, but aided somewhat in furnishing fuel for the burning of the body, were also convicted of murder and sentenced to be executed, but were recommended by the court and prosecuting counsel to the clemency of the executive, for transportation.

The statement given in our last, has proved literally correct. London was sent to the house to inform the doctor, Randolph had returned; on the doctor arriving at the cabin he found Randolph there with a large club in his hand, which he attempted to take from him—a scuffle ensued—the negro extricated himself and gave his master a blow which brought him to the ground; the blows were at short intervals repeated until their object was accomplished. The principal actors in this part of the tragedy, were Randolph, London and Sarah, who, from all the testimony, it appeared were the only three present at the commission of the murder, and who, it was also very evident, contrived the plot. London and Sarah were then despatched to the dwelling house [kitchen] for the other negroes—when a consultation was held as to the manner of disposing of the body; it was at length determined to burn it up, which was done—Sarah had possessed herself of her master's keys, and soon after the murder repaired to the house, where, in a sideboard, she found a large sum of money, it is believed not less than from ten to twenty thousand dollars, part of which has been recovered; but it is feared the remainder has been destroyed. The trial of the remaining part of those engaged in the murder, except Randolph, the principal, was postponed until this day;—Randolph is to be tried on Monday—he confesses all the circumstances. Three will undoubtedly be hung, and probably three transported. It gives us pleasure, in reference to the character of the deceased, to state, although it is irrelevant to the subject at issue, that the most ample and respectable testimony, was exhibited, which placed his character as a master in a very exalted point of view. He was represented by several highly respectable witnesses as treating his slaves with the utmost humanity, and indeed, excessive kindness. *Winchester Gaz.*

Monroe Potatoes.—The last Kenne bank paper contains the following advertisement:

"For sale, a few bushels Monroe Potatoes, at a dollar per bushel. They are as superior to our common potatoes, as wheat is superior to barley, or as Mr. Monroe is superior to Mr. Jefferson—As witness my hand,

JACOB FISHER,
"Justice of the Peace and of the Quorum."
"Note they may be planted in all June."

During the late tempest in England, a black cloud which was hanging over the sea exploded with a terrible noise, and discharged an immense globe of fire, which fell into the sea. The water was thrown upwards of forty feet in height into the air.

Warm Weather.—On Thursday last, at Salem, Massachusetts, the mercury was at 90 of Fahrenheit.

Legislature of Massachusetts.—It appears from the official returns, that the majority for governor Brooke, was eight thousand, one hundred and forty-four.

Alexandria, June 5, 1818.

Communicated for the Gazette.

We who speak the English language are strangely apt to consider all those who live out of Europe or America—particularly if they essentially differ from ourselves in complexion and religion as almost entirely destitute of erudition.—We remember to have, when perusing some of the reports of Hasting's trial, or at least the proceedings preparatory to it, in the *British House of Commons*, observed with surprise, indeed with more unpleasant emotions than surprise, the ludicrous effect which Mr Burke's glowing account of the literature and erudition of the East, produced upon the squire Westerns of that day. Not a Tony Lumpkin was there present, who did not chuckle, as if that great man had talked of a college of Caffrians issuing editions of Homer, or Virgil, or Milton, with critical notes by its professors.—Yet we have the authority of very enlightened and honorable travellers and scholars, for saying that not only letters are understood, but that universities have been founded, and that libraries exist in places much less likely to possess them.

From cardinal Perron we have the following curious article of intelligence, which the reader will find in the *Perro-nians*.—"In that part of Tartary which belongs to the kingdom of Persia, (says the cardinal) there exists a flourishing university, where the Arabs cultivate literature. GIOAN BAPTISTA REMONZ, who was the first that caused books in the Arabic language to be printed in Europe, and who had even studied in this university, has pretended to say, that there were a number of Arabic books translated from many Greek authors who remain unknown to the Europeans. It is the Arabians who have preserved a book of Archimedes; with many authors who have written on mathematics; such as the Apollonius Pergæus, and even Aristotle, Hippocrates and Galen.

BELL, in his travels to Tartary too, gives us the following account. "In SENNIA, there exists an uncommon library, the rooms of which are filled with scrolls of glazed paper, fairly written, and many of them in gilt characters. The language in which they are written is that of Longuts or Calmucs. Perhaps," adds he, "they may contain some valuable pieces of antiquity, particularly ancient history."

Mr. Andrews in his anecdotes informs us, "Travellers agree that at Mount Athos there are several monasteries with libraries full of books, which are illegible to those holy brotherhoods, but whose contents are probably well worth inspection."

Every tourist who takes a memorandum, every commander or mate of a vessel who can write his own log, obtrudes his observations, sets forth his discoveries, however unimportant—puffs the trumpet of bombast till he almost cracks it, and works up into pathos his relation of hair breadth escapes, storms, short provisions, and God knows what. But if on their return home, these men would endeavor to bring some information, or some materials of the kind to which we allude, a new source of knowledge would be opened to the world: many books which are now supposed to be irretrievably lost, would probably be recovered; and, of the works of the illustrious ancients which have come down to us, in an imperfect, mutilated form, many chasms might be filled up, science might be enlarged, and the thirst for literary information be gratified.

TREASURY DEPARTMENT.

25th May, 1818.

Sir—The act of congress concerning navigation, heretofore annexed, which is to take effect the first day of October next, so materially changes the commerce of the United States with the colonies and territories of his Britannic majesty, that a due regard to the convenience and interest of those engaged in it, requires that the construction of the act should at this time be determined.

According to the term used under the first section of the act, every port or place in the British colonies and territories in the West Indies, and on the continent of America, must be considered as closed against vessels of the U. States to which they are not by act of parliament;

permitted to carry on the same trade, both in exports and imports, which is now, or shall hereafter be, carried on in British vessels between the ports of the United States and the ports of any British colony or territory. The permission by act of parliament to vessels of the U. States to go in ballast to Turks island and bring away salt, or to carry certain articles to one or more of the Bahama Islands and bring away salt and a few other articles, cannot be considered as opening the ports of those islands to the vessels of the United States, according to the intention of the act of congress, whilst British vessels are permitted to carry on the same trade in articles prohibited to vessels of the United States.

It may be proper to observe, that the prohibition in the first section applies equally to vessels whether in ballast, or with cargoes.

The form of the bond required by the second section of the act is herewith annexed. It is expected that proper circumspection will be exercised in requiring security, as much of the efficacy of the act will depend upon the judicious discharge of this part of your duty.

I am, very respectfully,
Sir, your most obt. servt.
Wm H. CRAWFORD.
Collector, Port of Alexandria, D. C.

From the South.—Accounts from St. Augustine, via St. Marys, state, that 1000 of the Semipole Indians had fled to that place for refuge—and it was reported, and confidently believed, that general Jackson was not far behind them, on his march to St. Augustine.

Norfolk, June 1.

Captain Hill, of the schr. Emily, on his passage from Jacquemet to Aux Cayes, was boarded by one of Com Jolly's squadron, and plundered of several articles—amongst which, they sent down and carried off the main-topmast, the square-sail-boom, and all the square rigging they could lay their hands on.—A part of this squadron was seen for several days afterwards cruising off Aux Cayes, and thence up to Beitta. The avowed object of this squadron, was as soon as they could concentrate all their force, to make an attack upon the city of St. Domingo, and hold it as a place of depot.—The British frigate La Pique, Capt. Kelly, and the Primrose sloop of war had come up from Jamaica to cruise on the south side of the Island for the protection of British commerce from the depredations of these freebooters. A squadron of three sail, under Haytian colours, had been round from Port-au-Prince to Aux Cayes, for the purpose of protecting the commerce on that side of the Island.—Capt. H. was spoken by one of them, between Aux Cayes and the Island of Vache, and informed, that they had taken a piratical brig, which they had in company.—Four days previous to Capt. H. leaving Aux Cayes, a top-sail schr. of about 100 tons, having the name on her stern entirely obliterated, was taken up by some fishermen, off the east end of the Island of Vache, and brought into that port—not a soul was found on board, or any papers by which she could be identified.

From the Charleston Gazette, May 29.
Our correspondents at Kingston, (Jam.) have furnished us with files of Kingston papers to the 9th inst. by the British brig Cora, arrived yesterday, in 16 days from that port—from one of which we extract the following paragraphs:
Curacao, March 21.
The sloop Carl, capt. Baillie, 5 days from St. Bartholomews arrived here on Wednesday last, and contradicts the report of "Lord Cochrane having touched at that Island. Four ships under English colours, arrived there some time ago, having troops on board, under the command of Colonels Hippeley, Gilmore, Wilcox and Campbell. These vessels, after remaining a few days, sailed for the Orinoco. One of them, however, it is said, have been seized at Grenada.
March 28.
By an arrival on Wednesday from St. Eustatia, we learn, that an agent from the Patriots arrived there on the 18th inst. in a sloop of war, three days from Guayana, for the purpose of purchasing a squadron lying at the latter place. Orders had been issued at Augustina for all the Independent privateers of Buon's squadron to assemble at Margaritta, for

the purpose of rigorously enforcing the blockade of the Spanish coast.

From the Fredericktown Herald.

Never did a more painful duty devolve upon us, than that we have now to perform, in announcing the death of Mr John MORT of the house of Mark & Shutt, of this place. The circumstances attending the death of this unfortunate youth are truly distressing. On Monday morning, about 9 o'clock, after conversing in his usual cheerful manner with his friends, he left his store without being observed by his brother who resided with him. Several hours elapsed before any uneasiness was felt as to what had become of him; but his unusual long absence began now to excite surprise, and to suggest some fears in the mind of his brother. A search was immediately commenced upon the premises, and enquiry made of some of the citizens of the town, but without effect. The hour of dinner at length arrived and past, and no tidings of him having been yet received, his absence began to create some dreadful forebodings of his fate, more especially as his watch and the hat he usually wore when from home, were discovered to be in the house. Another search was now made in and about the adjoining buildings, when, horrible to relate, about 4 o'clock, he was found in his warehouse suspended by the neck from one of its beams! He had effected his purpose by tying two handkerchiefs together and fastening one end thereof to a stick, which was then passed through a hole in the beam; with the other he made the fatal noose, and having ascended a stair-case a few steps, threw himself into the arms of death.

What could have led this unhappy youth to commit this rash act, must remain unknown, as there is not even ground for conjecture. Exemplary in his morals, and blessed with a disposition which never failed to win the respect and esteem of all who became acquainted with him, he bid as fair as any flower in nature's garden. But, alas! how is the scene reversed! The fond hopes of his affectionate and aged parents; the just expectations and tender solicitudes of his brothers and sisters; and the pleasure derived by his associates from his friendship—have been all levelled in the dust by this fatal catastrophe! The anguish which it must occasion in the bosoms of his surviving relatives, may more easily be conceived than described.—They had hoped much, nor was it without reason. Mr. S. was prosperous in his business—he had resided in this town for a number of years, during which his character stood pre-eminent in every virtue. But how fleeting are the enjoyments of this life! The unfortunate fate of this youth speaks more than volumes to a reflecting mind. It should teach us that no earthly prospects, can be so bright as not to be blasted in a moment; and that all the sublimity of bliss, which the world can boast, "is but vanity and vexation of spirit."

A bell-hanger and map-mounter advertises in a Boston paper, that he is a competent judge to choose good editions of maps, and offers his services to select for libraries or private gentlemen. This is singular.

It is said of the earl of Essex, that he was grown so popular, that he was too dangerous for the times, and the times for him.

He who follows the voice of the People must not only sacrifice his own opinion, but the good of his country to their prejudices.

The brig Rising Sun, from Portland for Baltimore, was driven in a late gale, upon the Wolf-Trap, where she lay and beat for about two hours, when the tide rising she drifted over the shoal—but it being impossible to keep her free, she was run ashore near Newport Comfort. It is expected part of her cargo will be lost.

For Sale.

A VALUABLE FARM, containing between six and seven hundred acres of land, the greater part of which is in timber, and adjoins the land of Charles Thift and Edmund J. Lee. esq. and extends to the road from Leesburg to the mill lately known as Miller's Mill, on Goose Creek, and not more than three quarters of a mile from the turnpike road now making. The farthest boundary of this land is not more than three miles from Leesburg, and the nearest, which is in timber, not more than one mile and a half. The timbered land will be laid off into 10 or 15 acre lots, reserving a sufficient quantity for the land now cleared and in cultivation. It is unnecessary to say that this land is as well adapted to plow as any in that part of the country; and if not sold at private sale previous to the September Leesburg court, will be then offered at public sale, and the terms made known on the day.

There are fifteen or twenty negroes residing on the farm that may be purchased with it if wanted.

Valuable Family Medicines.
JUST received, direct from the proprietors, the following valuable MEDICINES, all of which have been in use for a number of years past, in almost every part of the United States; have been highly patronized by people of the first respectability; and approved by those who have had occasion to make use of them, for the cure of those disorders for which they are severally calculated.
Dr. Lee's Genuine (Windham) Bilious Pills.
Universally known and used throughout the United States as a family medicine. The fame of these pills has become so great, that many have attempted to counterfeit them—to guard against this the proprietors have procured a stereotyped label, and each box of Genuine Lee's Pills will hereafter be enclosed in

one of these labels, with these words on the sides: "Lee's Genuine Windham Bilious Pills," and on the end of the label the words, "Samuel Lee, patentee, &c. I. Thompson, agent, joint proprietor," &c. and should any be offered for sale without said label on them, the purchaser may be apprised that they are counterfeit.

Dr. Thompson's celebrated Eye Water.
For the cure of inflamed and sore eyes of almost every description. This valuable preparation comes highly recommended from the most respectable sources.—Price 50 and 25 cents a bottle.
Dr. Rawson's Genuine Rich Ointment.
A certain and safe cure for that disagreeable complaint, as well as other eruptions of the skin. Price 37 1/2 cents a box.
Dr. Rawson's Anti-Bilious and Stomachic Bitters.
For weakly and infirm constitutions. Price 37 1/2 cents a box.
Hinckley's Infallible Remedy for the Piles.
A most valuable medicine. Price 50 cents a box.
Thompson's Aromatic Tooth Paste.

James Kennedy & Son,
RESPECTFULLY inform the public that they have just received from **LEE'S MEDICINE STORE,** No. 46, Maiden lane, New-York a fresh supply of the following valuable MEDICINES:
Hamilton's Worm Destroying Lozenges.

Which have within sixteen years past cured an immense number of persons of both sexes of every age and in every situation, of various dangerous complaints arising from WORMS, and from obstructions or foulness in the stomach and bowels.
This medicine bears no analogy whatever to others of similar titles so commonly complained of as operating with violence; on the contrary a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent & is so mild in its operation that it cannot injure the most delicate pregnant lady or the tenderest infant of a week old should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels of whatever is foul or offensive, and thereby prevent the production of worms and many fatal disorders. The lozenges are particularly efficacious in carrying off all gross humours and eruptions, feverish and bilious complaints, and are the safest and mildest purgative that can be used on any occasion.
Description of Worms, and the symptoms by which they are known.
Worms which infest the human body are chiefly of four kinds viz.—The Terebrator or large round worm; the Ascarides or small maw-worm; the Cucurbitaria or short flat white worm; and lastly, the Tania or tape-worm, so called from its resemblance to tape. This is often many yards long and is full of joints. It is most hurtful and most difficult to remove.
Among the symptoms attending worms are—disagreeable breath, especially in the morning; bad and corrupted gums; itching in the nose, and about the seat; convulsions, epileptic fits, and sometimes paralysis of speech; starting and grinding of the teeth in sleep; irregular appetite, sometimes loathing food and sometimes voracious; purging with slimy and foetid stools; vomiting; large and hard belly; pains and sickness at the stomach; pains in the head and thighs and lowness of spirits; slow fever with small and irregular pulse; a dry cough; excessive thirst; sometimes pale and unhealthy countenance and sometimes the face bloated and flushed.
Persons afflicted with any of the above symptoms should have immediate recourse to Hamilton's Worm Destroying Lozenges, which have been constantly attended with success in all complaints similar to those above described.
A dose of this medicine given occasionally during the warm season, will effectually prevent "the vomiting and purging of children"—a dreadful disorder, which annually destroys thousands of the infant part of our citizens. It is likewise the mildest and most certain remedy known, and has restored to health and strength a great number who in an advanced stage of this fatal complaint. Particular and plain instructions are given for every part of the necessary treatment in such cases.
Children generally take this medicine with eagerness; having a pleasing appearance, and an agreeable taste.

The Restorative Powder for the Teeth and Gums.

For the prevention and cure of Bilious and Malignant Fevers is recommended
Hahn's ANTI-BILIOUS PILLS
THIS Medicine has been attended with a degree of success highly grateful to the inventor's feelings in several parts of the West Indies and in the Southern and Middle States, &c.

The testimony of a number of persons can be adduced, who have reason to believe that a timely use of this salutary remedy has, under Providence, preserved their lives when in the most alarming circumstances.
Facts of this conclusive nature speak more in favour of a medicine than calumnies of pompous eulogy founded on mere assertion.
It is not indeed presumptuously proposed as an infallible cure, but the inventor has every possible reason that can result from extensive experience for believing that a dose of these Pills taken once in every two weeks during the prevalence of our bilious fevers, will prove an infallible preventive; and further, that in the earlier stages of those diseases their use will very generally succeed in restoring health, and frequently in cases esteemed desperate and beyond the power of common remedies.
The operation of these pills is perfectly mild, so as to be used with safety by persons in every situation and of every age. They are excellently adapted to carry off superfluous bile and prevent its morbid secretions—to restore and amend the appetite—to produce a free perspiration and thereby prevent colds which are often of fatal consequences. A dose never fails to remove a cold taken on its first appearance: they are celebrated for removing habitual constiveness—sickness at the stomach and severe head-ache—and ought to be taken by all persons on a change of climate.
They have been found remarkably efficacious in preventing and curing disorders attendant on long voyages, and should be procured and carefully preserved for use by every seaman.
